

SERVICE NL SCHOOL BUS INSPECTIONS

Spring 2017*

NOTE: Report generated June 18, 2017. Includes data recorded as of that date.

KEY TERMS:

Out of Service - On the date of inspection the bus was found to have defects that would compromise the safe operation of the vehicle and could present a safety risk to the driver, and/or other motorists. The bus must be repaired on site or moved to a place of repair by towing or float truck. Out of service defects include, but are not limited to: failed brake test, fuel line leak, steering defect.

Restricted Service - On the date of inspection the bus was found to have defects that would deem the vehicle unsafe to transport (pick up and discharge) passengers, however, was not in an unsafe mechanical condition to be driven to a place of repair. Restricted service defects include, but are not limited to: inoperative stop arm, inoperative flashing warning lights, inoperative emergency exit.

Returned to Service - Indicates date repair was verified and bus returned to service. If no date indicated, proof of repair may not have been received, or data was not yet entered as of the date of this report.

Return to Service Requirements - Buses that are placed out of service or on restricted service may be returned to service only after necessary repairs are completed and proof of repair has been verified by Service NL.

***NOTE:** Service NL Highway Enforcement Officers inspect a minimum of 30 per cent of each operator's fleet in the spring. If significant issues are detected, up to 100 per cent of the operator's fleet may be inspected at the officer's discretion.
